ETH Hangar at Innovation Park Zurich

Located at Switzerland Innovation Park Zurich at the Dübendorf airfield, ETH Hangar is an innovation hub connecting industry and academia through collaborative projects.

Already today, four student competition teams are successfully realizing technical challenges – be it the development of electric aircrafts (Cellsius), space technologies (ARIS), race cars (AMZ) or hyperloop pods (Swissloop).

Besides, it is possible to gain an insight into one of its research projects in the spotlight – the “Center for Immersive Wave Experimentation” (CIWE) from ETH’s Exploration and Environmental Geophysics group. At ETH Hangar, the group is researching a new approach to seismic wave experimentation in three different set-ups.

Please note that either the competition teams or the CIWE will be presented during a visit.

For individuals

Available public dates are bookable [online](#).

90 minutes: CHF 15 per person

Payment is made directly at the time of booking by credit card or TWINT.

For groups

Groups of 6 to 25 people may request individual dates via this [booking form](#). The lead time is four weeks.

90 minutes: CHF 300 per group / CHF 150 per school class

Payment is made in advance by invoice.
